

# Extend Link Values With Condition Component

## Using :

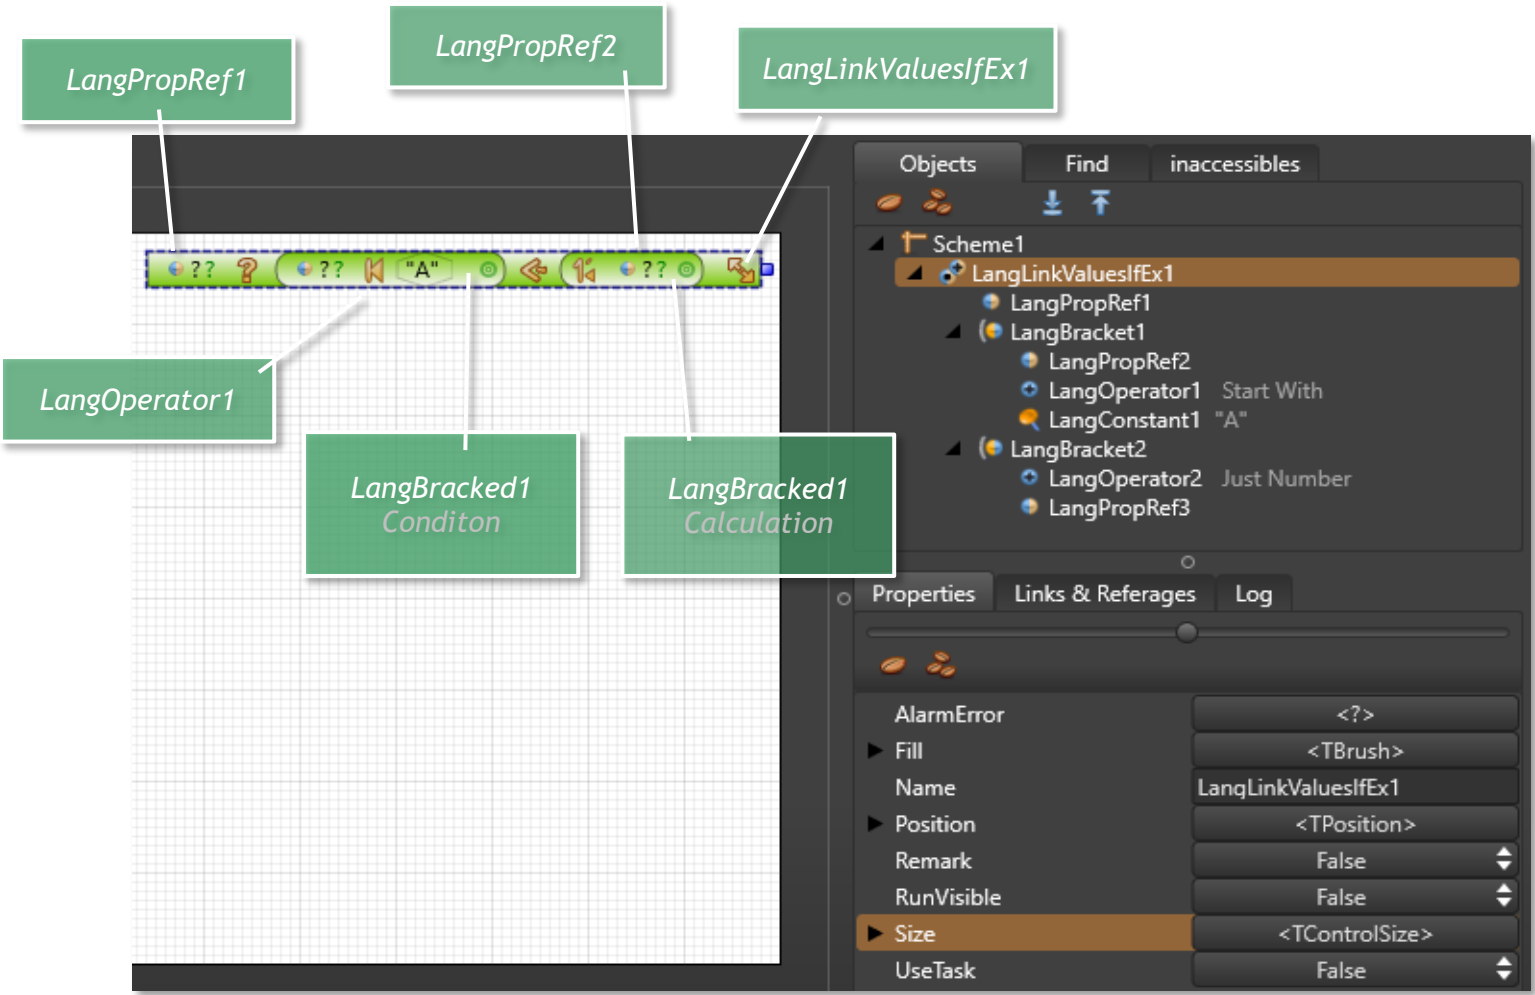

for link to Any Object.Property with Condition Calculation  
Object1.Property1 = ?(Object2.Property2 > 10) <- (Object2.Property2 + Object3.Property3)  
Object1.Property1 = ?(Object2.Property2 *Start With* "A") <- (Object2.Property2 - Constant)  
if Change Any *Object.Value* in Condition Bracked then Recalculate Result

## SubObjects :

- LangPropRef1 *Result Property Referange*
- LangPropRef2 *Calculation Property Referange*
- LangBracked1 *Condition Bracked*
- LangBracked2 *Calculation Bracked*
- LangOperator1 *Operaror*

## Propertyes :

*Remark* Skip Calculation

Example
